Summary

- **HPAI Peak** appears to have been **overcome**
- There are still cases in **wild birds throughout Germany at a constant level**
- Number of cases in **poultry are at a low level, latest** outbreaks in **non-poultry**
- No outbreak since 16/03/2026
- Situation is **under control, no chains of infection**
- However risk assessment FLI (06/03/2026) still results in **high risk**
